ODP 83-1131
4 August 1983

MEMORANDUM FOR: Deputy Director for Administration

FROM: Director of Data Processing   STAT

SUBJECT: ODP Report for Week Ending 5 August 1983

1. Excess ADP Equipment

        A request was submitted to Supply Management Division,
Office of Logistics, to release the four remaining excess SAFE
Burroughs B6930 computer systems to the General Services
Administration for reassignment to other Government agencies.
Several agencies have already expressed interest. These
systems were declared excess after extensive attempts to place
them in the Intelligence Community proved unsuccessful.

2. Significant Events During Coming Weeks

        None.

                                                                      STAT

ODP/EXO   (4 August 1983)   STAT

Distribution:

        Original + 2 - Addressee
                   2 - D/ODP
                   1 - ODP/Package
                   2 - ODP/Registry

Excerpts from ODP Div/Staff Reports for Week Ending 5 August 1983

Management Staff

Finance. As of 3 August, there were 53 outstanding advances with a dollar value of $30,365. No accounts were delinquent. (U/AIUO)   STAT

Headquarters Regulation [ ] A proposed revision of   STAT
Headquarters Regulation [ ] Automated Data Processing Management   STAT
and Administration, was sent to all DDA Office Directors for review and comments. This revision updates the current 1975 version. Comments have been requested by COB 12 August. [ ] (U/AIUO)   STAT

RECON Guard Program. Proposed ODP comments on an ORD draft memorandum, entitled "RECON Guard Program Evaluation Phase," were distributed to participating ODP components for coordination. The document will serve as an internal CIA memorandum of understanding defining the roles and responsibilities of each of the participating offices during this phase of RECON testing. [ ] (U/AIUO)   STAT

CAMS Budget. The Intelligence Community Staff has decided to hold up the transfer of the CAMS budget back to the Agency until after the 1985 OMB Review. This will avoid competing the new 1985 initiative for CAMS with new 1985 Agency initiatives. [ ] (U/AIUO)   STAT

Applications

[ ] attended the 1983 Conference   STAT
of the Special Interest Group on Graphics (SIGGRAPH) of the Association for Computing Machinery (ACM) in Detroit, Michigan. [ ] made a presentation at the conference on TACK. His   STAT
presentation dealt with building a system which allows analysts to merge RAMIS data files with geographic mapping software to enable easy and sophisticated analysis. The presentation was very well received. [ ] (U)   STAT

Special Projects Staff

The two SAFE-D HETRA high speed line printers were made operational at Arlington Hall Station on 27 July. High speed printer output from SAFE-D is now available at DIA. [ ] (U)   STAT

ADMINISTRATIVE – INTERNAL USE ONLY

The 50 Data Royal slave printers that DIA ordered for Early
Capability arrived [   ] and were delivered to DIA on   STAT
28 July. Installation locations of those printers will be
determined by the SAFE-D Customer Support Group and will commence
on 15 August. [   ] (U)   STAT

As reported last week, the Model 204 Data Base Management
System was loaded onto the SAFE Development Processor. Several
minor problems have been identified and are being resolved with no
project impact. [   ] (U)   STAT

Forty-two Delta Data 7260T terminals, four for Xerox 2700
laser printers and five Data Royal printers were delivered to five
SAFE contractor sites in preparation for connection to the
unclassified SAFE Development System. This connection will be
through leased telephone lines into the Northside Computer Center.
The breakdown is as follows:

	Delta Data 7260T	Xerox 2700	Data Royal
Logicon	7	1	2
Infodata	7	1	0
Chase, Rosen, & Wallace	10	1	2
Geodynamics	2	0	1
CSPO	8	1	0
IBM	6	0	0
ODP/CSS	2	0	0
TOTALS	42	4	5

Processing

[   ] A Xerox on-site customer engineer will be available for the
[   ] Computer Center effective 31 July. The engineer will be   STAT
assigned to the midnight shift to perform preventative and remedial
maintenance. This will minimize disruptions to the Xerox 9700 cut
paper machines during periods of peak workloads.

SPD hosted the Washington area VM Users Group (HILLGANG)
meeting at Headquarters with almost 200 attendees from outside the
Agency. The program went very smoothly, thanks to excellent
support from Admin and Security. IBM made presentations on System
Query Language/Data System (SQL/DS) relational data base system and
Interactive Systems Programming Facility (ISPF), while Mitre
Corporation discussed performance measurement of Professional
Office System (PROFS), which is IBM's electronic mail system.
